Intro

As a professional in web design and development, I have accumulated over 2 years of experience in creating intuitive and functional user interfaces. I also possess strong project management skills, effectively bridging communication between development teams and clients to ensure each project is successfully completed according to set targets. With my ability to manage projects and work efficiently within a team, I am prepared to deliver innovative and effective solutions for every challenge encountered.

About Me

I am a professional in web design, frontend development, and web application development with over 2 years of experience. I excel in designing and developing intuitive and responsive user interfaces. Additionally, I have experience in project management, particularly in bridging communication between development teams and clients to ensure that each project meets the specified requirements and goals. I am capable of working on complex projects with efficient and innovative solutions.
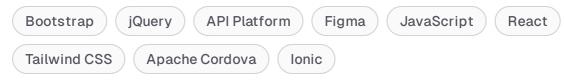

Experiences

Frontend Developer
Danamart
Mar 2022 - Present • 2yrs 5mos

Responsible for designing and implementing user interfaces for both web and mobile applications, ensuring they are visually appealing, responsive, and functionally robust. Collaborate with cross-functional teams to translate project requirements into high-quality code using technologies like React, JavaScript, Tailwind Css, Cordova, and Ionic. Continuously optimize and maintain existing applications to improve performance, user experience, and cross-platform compatibility.

Tailwind CSS Apache Cordova Ionic

Web Designer
Prokoin (Program Koding Indonesia)
Jan 2022 - Present • 2yrs 7mos

- Led and managed web and mobile application development projects, serving as the liaison between the development team and clients to ensure all project requirements and goals were successfully met.
- Responsible for designing and developing user-friendly web and mobile applications with seamless functionality.
- Oversaw the entire development process to ensure projects were on track, met performance standards, and were responsive across different platforms.

Next.js Flutter Figma Firebase Laravel Ionic Git

UI/UX Designer
Textile
Oct 2021 - Jan 2022 • 3mos

- Designed user interfaces from initial wireframes to high-fidelity prototypes, ensuring a cohesive and intuitive user experience.
- Performed slicing of designs and implemented them directly, collaborating closely with backend developers to ensure seamless integration and functionality.
- Took a hands-on approach in bridging the gap between design and development, ensuring that the final product was both visually appealing and fully functional.
